

Dear Friend of MYAN,

We strongly believe in the power of youth and adult partnerships. Because of this value, youth participate in and guide all of MYAN's work. **We are currently recruiting for high school intern positions.** Through these positions, youth focus on core project as well as being part of the collaborative team that plans MYAN events, such as the Peer Leadership Conference and Maine Youth Anti-Tobacco Summit.

These dynamic internships are an ideal opportunity for a motivated young person to gain experience working in a nonprofit environment. Interns develop a wide variety of professional skills while being part of a supportive team whose mission is to empower youth to create positive change.

Youth interns must have transportation to the MYAN office in downtown Portland, and be able to commit 6 hours per week (MYAN staff can help you strategize about transportation options if this is a barrier.) Please see the attached job description for more details on both positions.

If you are interested in one of these positions, or if you know of a young person who might be interested in either position, please contact Chris at MYAN at 553-5918 or [cgorman@propeople.org](mailto:cgorman@propeople.org) for more information.

Thank you for your help in spreading the word about this opportunity!  
The MYAN Team
